SUMMARY

Business Analyst with 7+ years delivering projects across healthcare, retail and professional services in India and the UAE. Owns requirements, stakeholder alignment and delivery from discovery through launch and adoption.

Leads cross-functional teams, improves business processes and uses AI to accelerate analysis, documentation and prototyping.

CAREER HIGHLIGHTS

- Own end-to-end programme delivery and lead a four-member analytics team, from discovery through rollout and client adoption.
- Established a standard delivery process for 100+ monthly requests across 35 enterprise clients.
- Improved QA coverage by 12-15% at Deloitte; cut reporting and validation turnaround by 30% at Cognizant.

EDUCATION AND QUALIFICATIONS

Bachelor of Technology, Electronics and Communication Engineering 2018
Rajasthan Technical University | India

EMPLOYMENT HISTORY

Lead Associate - Technology May 2024 - Present
ManSci Professional Services DMCC | UAE

Key Accomplishments

- Own end-to-end ecommerce programme delivery, aligning requirements, scope, development, user acceptance testing (UAT) and client rollout.
- Established a software development lifecycle (SDLC) process for 100+ monthly requests across 35 clients, improving ownership and delivery visibility.
- Saved approximately four hours weekly through reporting automation; designed six Power BI modules for business decision-making.

Selected Projects

- Ecommerce Intelligence: Built the delivery model covering vendor sourcing, data-quality controls, KPI definitions, validation and client outputs.
- Workflow Transformation: Defined approval paths, incident escalation and customer feedback processes to improve accountability and traceability.

Responsibilities

- Lead requirements gathering and workshops; translate business needs into process maps, user stories, prototypes and acceptance criteria.
- Align stakeholders and vendors on scope, priorities and dependencies; coordinate backlogs, sprints and delivery decisions.
- Lead a four-member analytics team across concurrent engagements, overseeing allocation, reviews, issue resolution and delivery quality.

Business Analyst Jun 2023 - May 2024
Blue LLC (Alserkal Group) | UAE

Key Accomplishments

- Delivered five Power BI and Zoho dashboards for asset, revenue, sustainability and operational reporting.
- Unified reporting across six departments, reducing duplicate and conflicting information.
- Designed a lifecycle solution for 120+ assets, establishing ownership and visibility from purchase through disposal.

Responsibilities

- Led director-level requirements workshops; mapped current and future processes and defined key performance indicators (KPIs).
- Supported solution validation, UAT, stakeholder reviews, training and adoption.

Analyst

Jan 2021 - Jan 2023

Deloitte USI | India

Key Accomplishments

- Improved QA coverage by 12-15% by automating recurring validation with Python.

Responsibilities

- Analysed requirements and coordinated Agile sprints, release planning, functional testing, Jira defects and UAT for CalHEERS.
- Led a four-member team, coordinating workloads, progress, issue resolution and delivery quality.

Programmer Analyst

Nov 2018 - Jan 2021

Cognizant Technology Solutions | India

Key Accomplishments

- Cut reporting and validation turnaround by 30% through Python and pandas automation.
- Translated business and reporting requirements into repeatable checks, improving validation consistency.

Responsibilities

- Worked with analysts, developers and testers to clarify requirements, resolve defects and validate outcomes.

CORE SKILLS

Business Analysis: Requirements gathering, stakeholder management, Business Requirements Documents (BRD), Functional Requirements Documents (FRD), process mapping, user stories, acceptance criteria, requirements traceability

Project Delivery: End-to-end delivery, Agile, SDLC, project planning, backlog prioritisation, vendor management, change control, UAT, RACI, risk and dependency tracking, root cause analysis (RCA), corrective and preventive action (CAPA)

Tools and AI: Power BI, DAX, Power Query, SQL Server, Python, pandas, AWS S3, Excel, PowerPoint, Jira, ClickUp, Zoho Creator, generative AI for research, documentation and prototyping

AWARDS

- Two Deloitte Spot Awards for CalHEERS contributions and four-member team leadership.
